- SafeParkview community manager
- Regular updates on crime statistics and incidents
- Independent home security advice
- Membership of the Parkview Residents Association

Who is SafeParkview?

SafeParkview is a non-profit company whose members are hundreds of Parkview residents and commercial subscribers. Set up in 2009, the company is affiliated to the Parkview Resident's Association. We have a board of volunteer directors and a community manager, who are all Parkview residents. The fundamental basis of SafeParkview is to spend our private security money most effectively by preventing crime rather than reacting to it.

Who is 24/7 Security?

24/7 is an armed response company who specialises in proactive patrolling and guarding. They have been contracted by SafeParkview to perform the proactive and reactive service that our community requires. 24/7 was selected by SafeParkview after considering tenders from five different security companies. 24/7 in Parkview is governed by operating procedures dictated by the SafeParkview directors. The three patrolling vehicles in Parkview are tracked by GPS and their activities are reported on a monthly basis to the SafeParkview management team.

Why is SafeParkview more expensive than armed response companies?

SafeParkview is not purely an armed response, reactive company. We provide the extensive list of services (shown left) exclusively to the residents of Parkview and Greenside East. Our fundamental activity is proactive patrolling and crime prevention.

Why one security company in Parkview is better

It is more effective to manage one security company which is proactive and operates to our requirements. If we all subscribe to SafeParkview, 1000 households have infinitely more influence and buying power than a single voice.
